

WORKHORSE
RESIDENTIAL

Residences at Mt Washington

MWIA Presentation

May 4, 2025

The Workhorse Residential Why

A home and its location have the ability to define a lifestyle.

As residential developers, we believe beautiful design with quality construction in desirable locations and project efficiency don't have to be mutually exclusive.

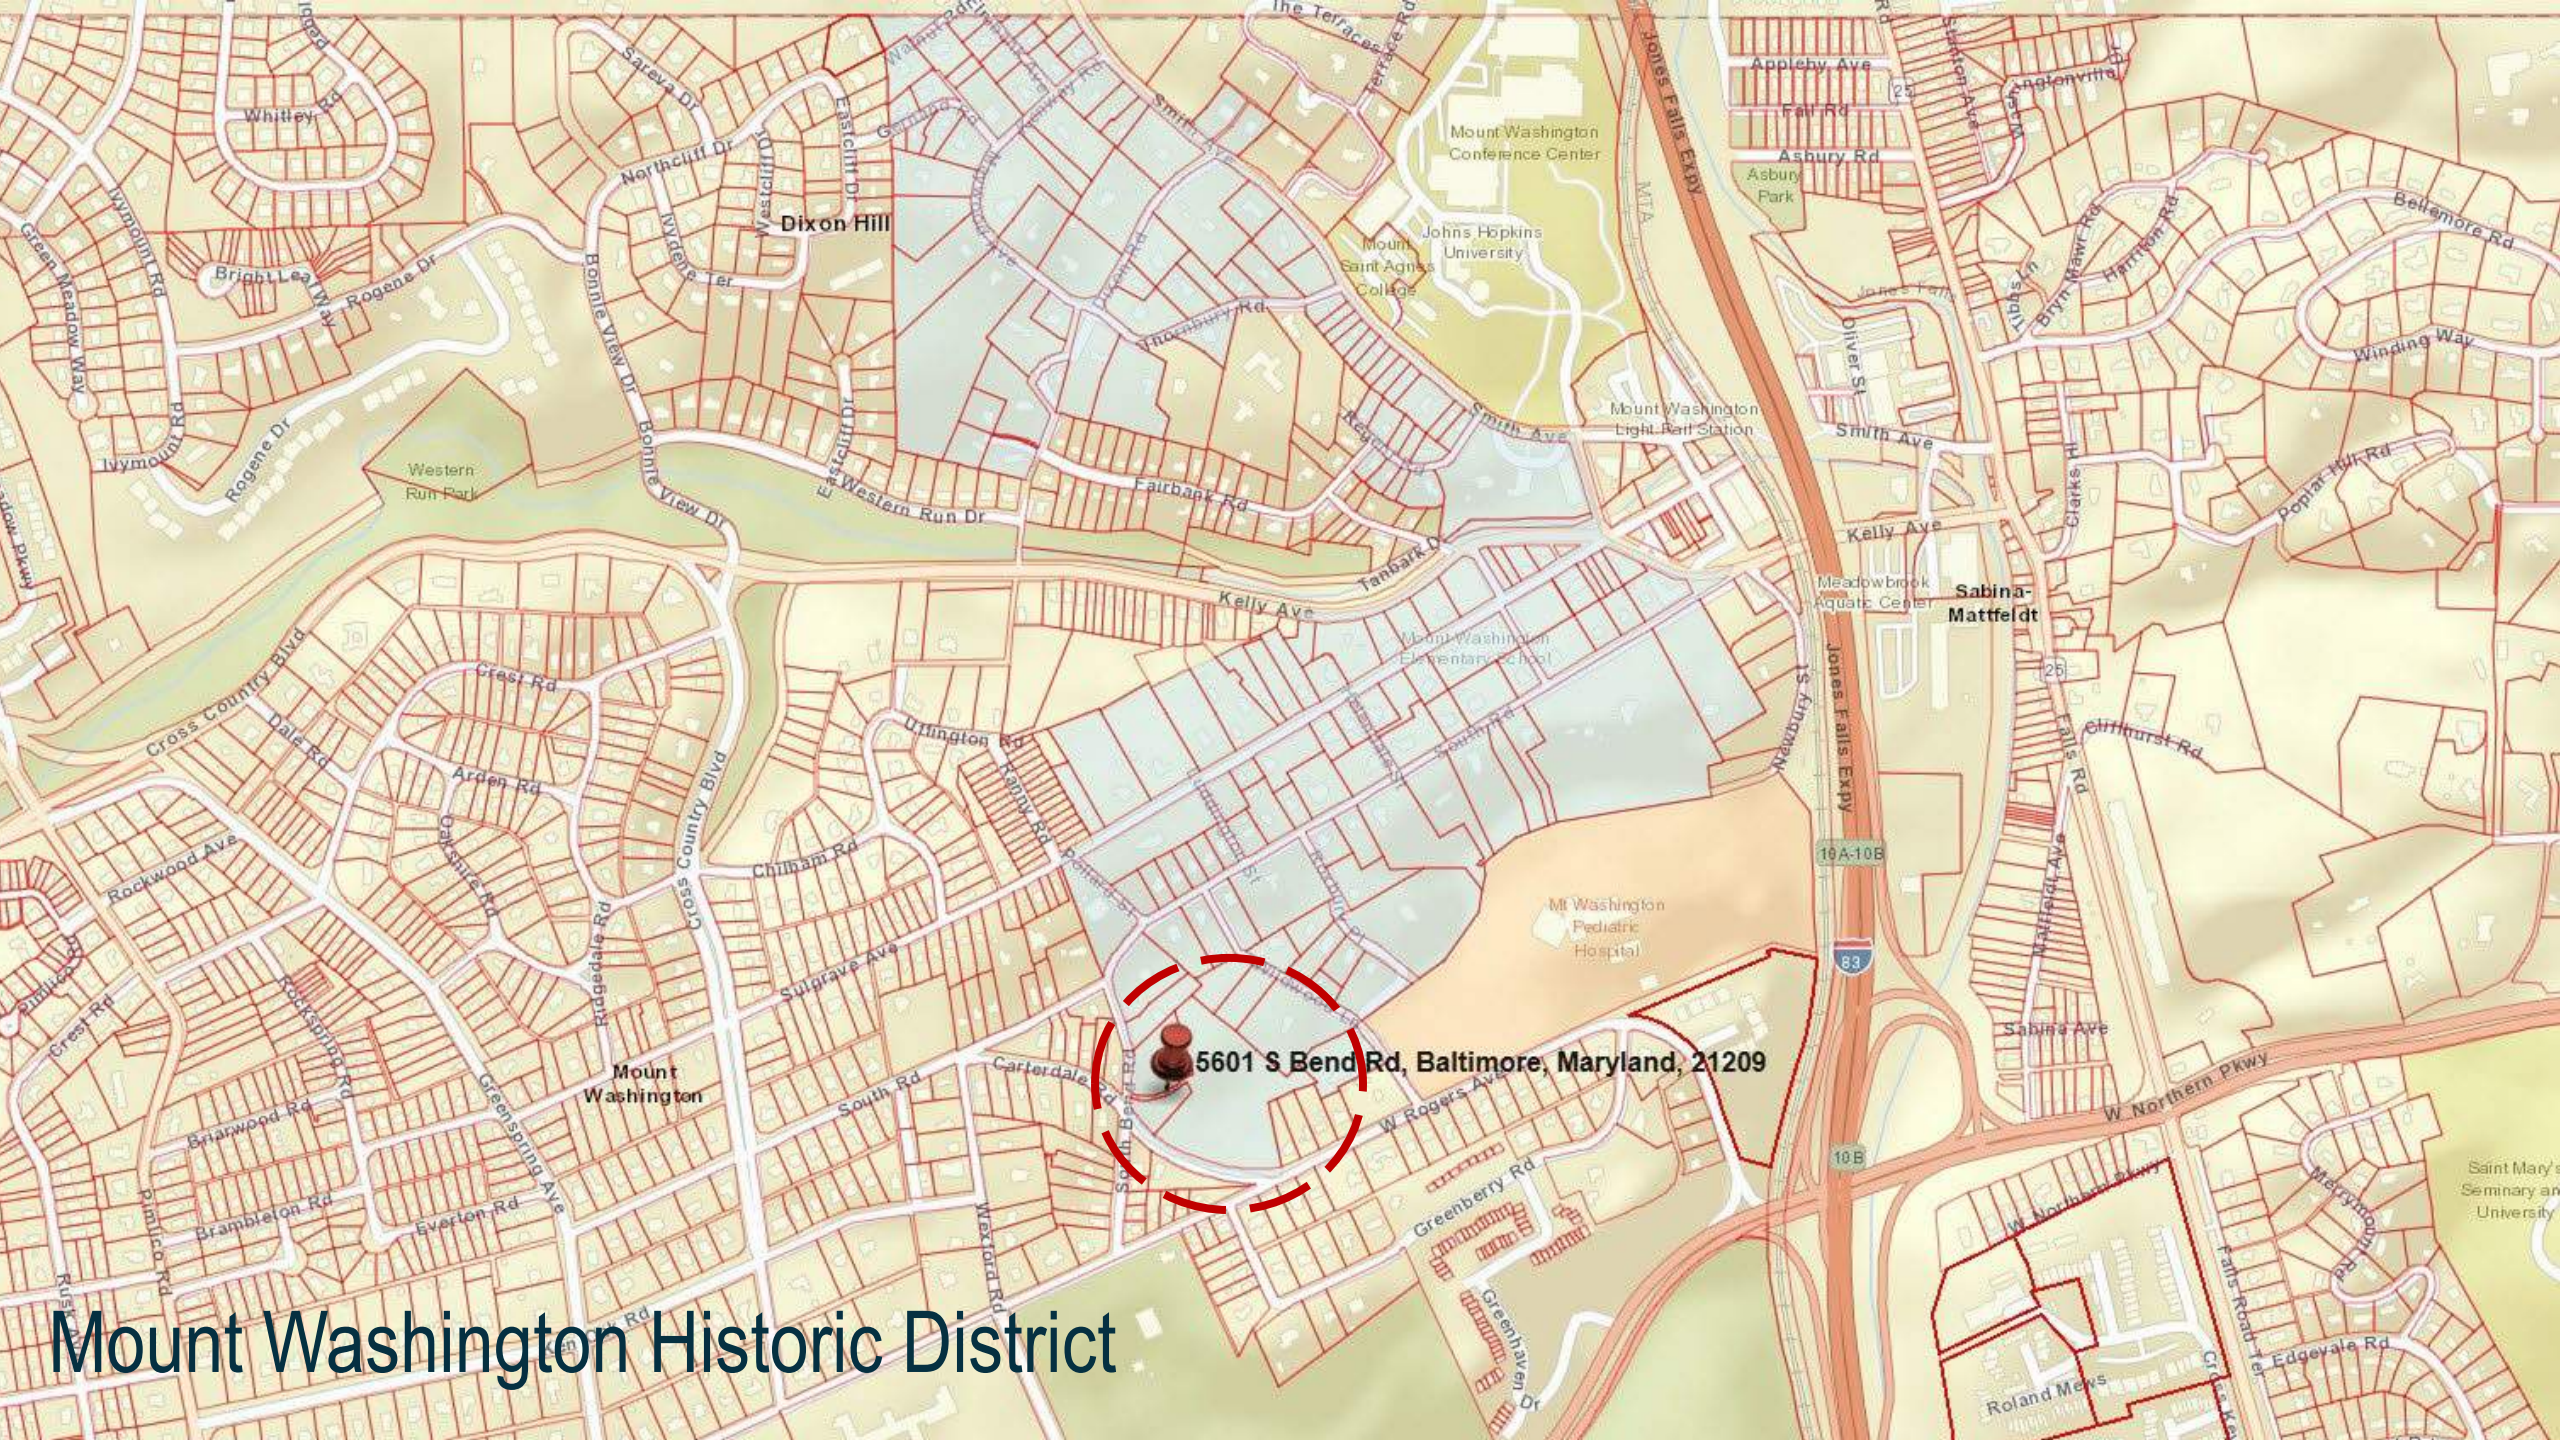

Workhorse Residential blurs the line between the custom and production home building models, providing customers with a high quality, turn-key home without the hassle, headache, and expense of the custom home building process.

With a focus on established, well positioned and amenity-rich communities throughout the Mid-Atlantic and Southeast, Workhorse Residential is
Built for a Lifestyle.

Workhorse Residential

- Residential Developer/Builder
- Development Focus: Spot Lots and Small Subdivisions
